I understand people making mistakes, but the Bible does talk about false prophets and there are people out there saying that those who prophesied Trump would be president are now false prophets... so my question is, "At what point would someone be considered a false prophet?"

---

---

8

1. They deliberately lead people **AWAY FROM JESUS** to false gods (e.g. Joseph Smith - Mormons)
2. They **LIVE A LIE** - they are not who they say they are in private as they are in public
3. They deliberately **MAKE STUFF UP**

When do we stop believing prophetic words? One big issue was *all* of the prophetic voices I trust and follow said President Trump would get re-elected. So with rumors of corruption many of us kept believing, hoping that it would be proven and the election would be overturned. Obviously, there is the camp that says the prophets just got it wrong, but what about the camp that is saying, "They didn't get it wrong and we should keep standing." How do you stand on prophetic words in the face of defeat?

I am not a supporter of President Biden or his administration. I do however, pray every day for our leaders to learn, understand and follow Kingdom Principles, not earthly principles. I pray for the President in this way. I cannot simply pray for the President and Vice-President without limiting it to God's Kingdom Principles. Is this conditional prayer my work-around of the scriptural direction? If any leader doesn't follow God's mandates, how can I follow the leader's direction? Is this my "get out of jail free card?"
